OVER HALF BILLION PERSONS USE PRAGUE TRANSPORT SYSTEM DAILY IN 1951

The Prague public transportation system transported more than a half a million persons daily in 1951. The plan, which called for the transportation of a half a billion persons in 1951, was fulfilled 103 percent. Electric trains transported 469,268,000 persons, trolley busses 30,945,000, busses 29,658,000, and the funicular railroad at Petrin 744,000 persons. A total of 530,615,000

In 1951, per million kilometers, there were 74 accidents among electric railroad cars in service, 43 trolley bus accidents, and 34 bus accidents. Relative to 1938, the number of accidents has been reduced by 48 percent. Simultaneously, the task of the transportation system has been doubled.
